Excerpt: . . . manuring and no manure, but no remedy was found. The scientists have told us nothing positively about it and we have contradictory facts bearing upon the subject. In Uaroline county we have good land that will produce 50 bushels of wheat per acre, it has done it and we raise good peaches on it. Then we have light sandy soil and when we manure that we get good peaches from it. But we have no yellows. If frost causes the yellows, why dont we have it in Caroline county as well as in Kent But we do not plow deep. We cant find a man in the county that plows six inches deep, three inches is about the rule. So these iacts are contradictory to those Mr. Brown has given us. We should not give out anything that is not fact, but whatever we...
